# About this module

- A marketing module for non-marketing students
- We focus on marketing practices and being creative
- It is more important to understand and think critically about marketing concepts than to be able to memorise them
- Both lectures and seminars are important to attend (seminars start in week 2)

# Module Aims and Overview

## Module Aims

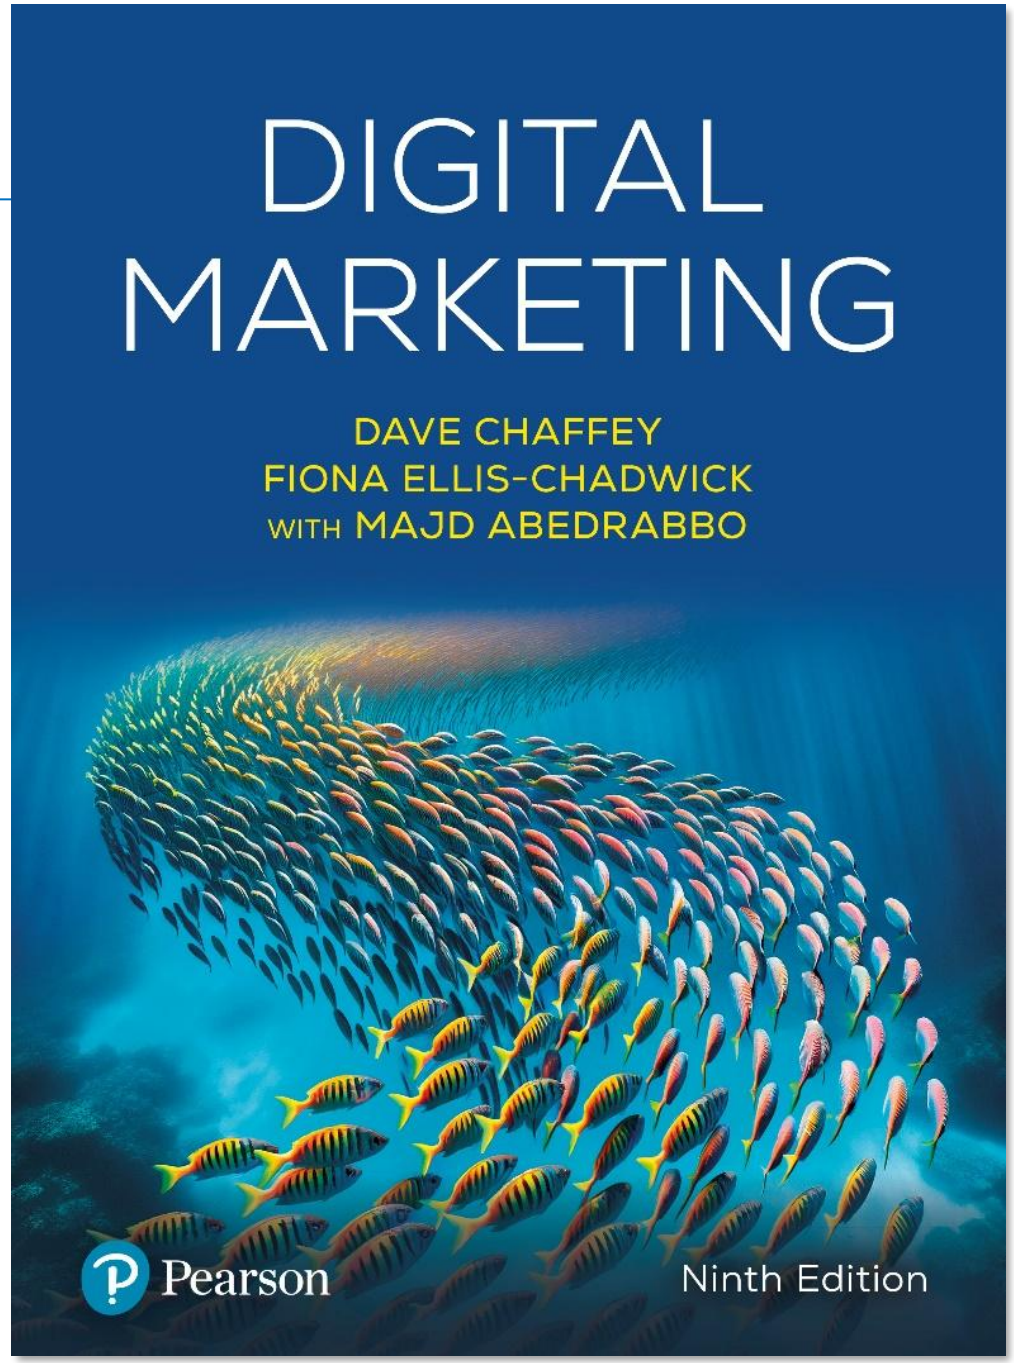

This module aims to provide students with an understanding of how digital technologies have shaped the evolution of contemporary marketing, recognise the importance of digital media channels, and recognise the ethical issues raised by digital technologies.

## Module Overview

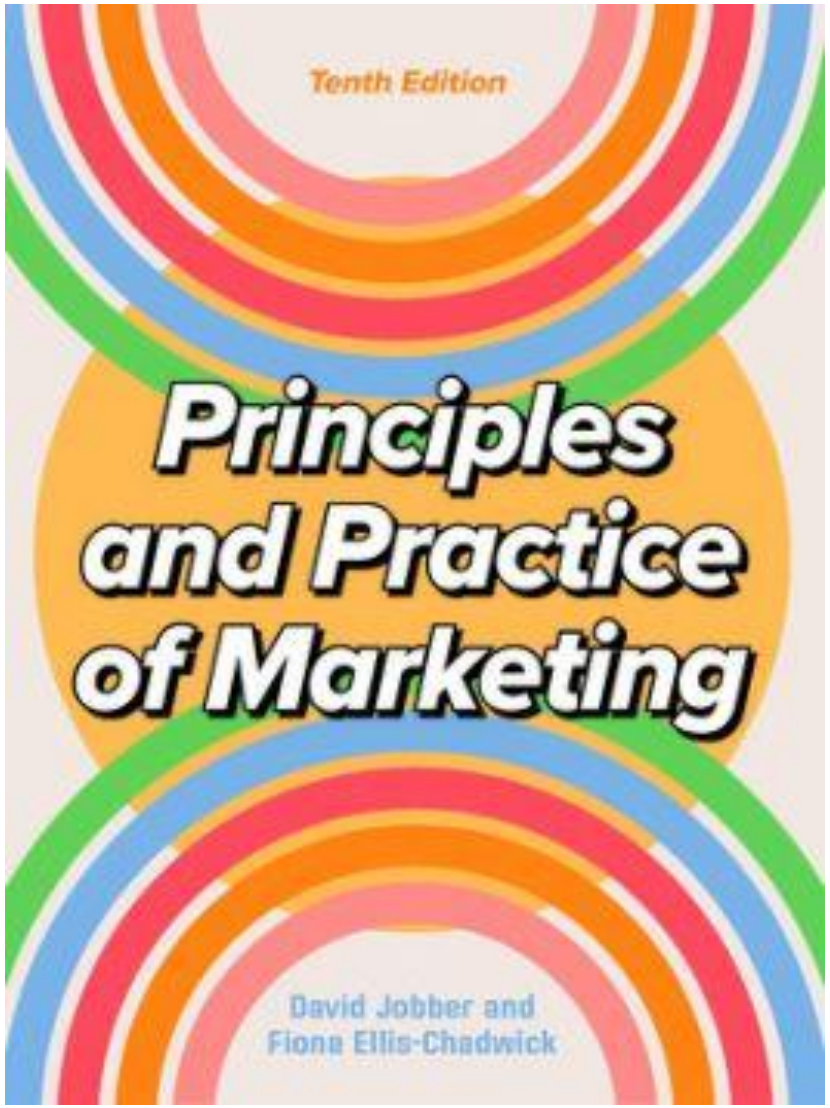

The focus of Marketing in the Digital Age is on the evolution of marketing in the context of today's rapidly changing digital business environment. It examines how digital technologies have combined with advanced practitioner thinking to challenge and change the face of contemporary marketing theory and practice. The course draws explicitly upon real cases and examples and is designed to give students a practical appreciation of cutting-edge practice.

# Outbound vs Inbound Marketing

# Shift in Marketing: From push to...

# … to push and pull – Communication models

Source: Chaffey et al. (2025, p. 25)

# Outbound marketing

**OUTBOUND MARKETING** begins when the brand pushes its message out to a specified audience usually with the intent of driving awareness of a product or service or sale, etc. The brand/company takes the initiative.

**OUTBOUND MARKETING ACTIVITIES**:

- ✓ Ads on traditional media (TV ads, radio ads, print ads)
- ✓ Display ads (pop-ups, banners)

Source: Chaffey et al. (2025)

Traditional media

In-person events

Cold calling

Direct mail/email

Event sponsorship

Door-to-door pitches

Reaches out to a target audience and pushes a message, regardless of the prospect's intent or awareness

Interruption-based

# Inbound marketing

**INBOUND MARKETING** begins when the consumer is proactive in seeking out information for their needs, and interactions with brands are attracted through content, search and social media marketing.

→ Pull: Potential customers look for solutions, find the company through channels such as search engines, email subscriptions, word of mouth, blogs, online reviews and recommendations.

**INBOUND MARKETING ACTIVITIES**:

- ✓ Opt-in email marketing
- ✓ Content production and promotion
- ✓ Social media
- ✓ Search engine optimization efforts (SEO)

Source: Chaffey et al. (2025)

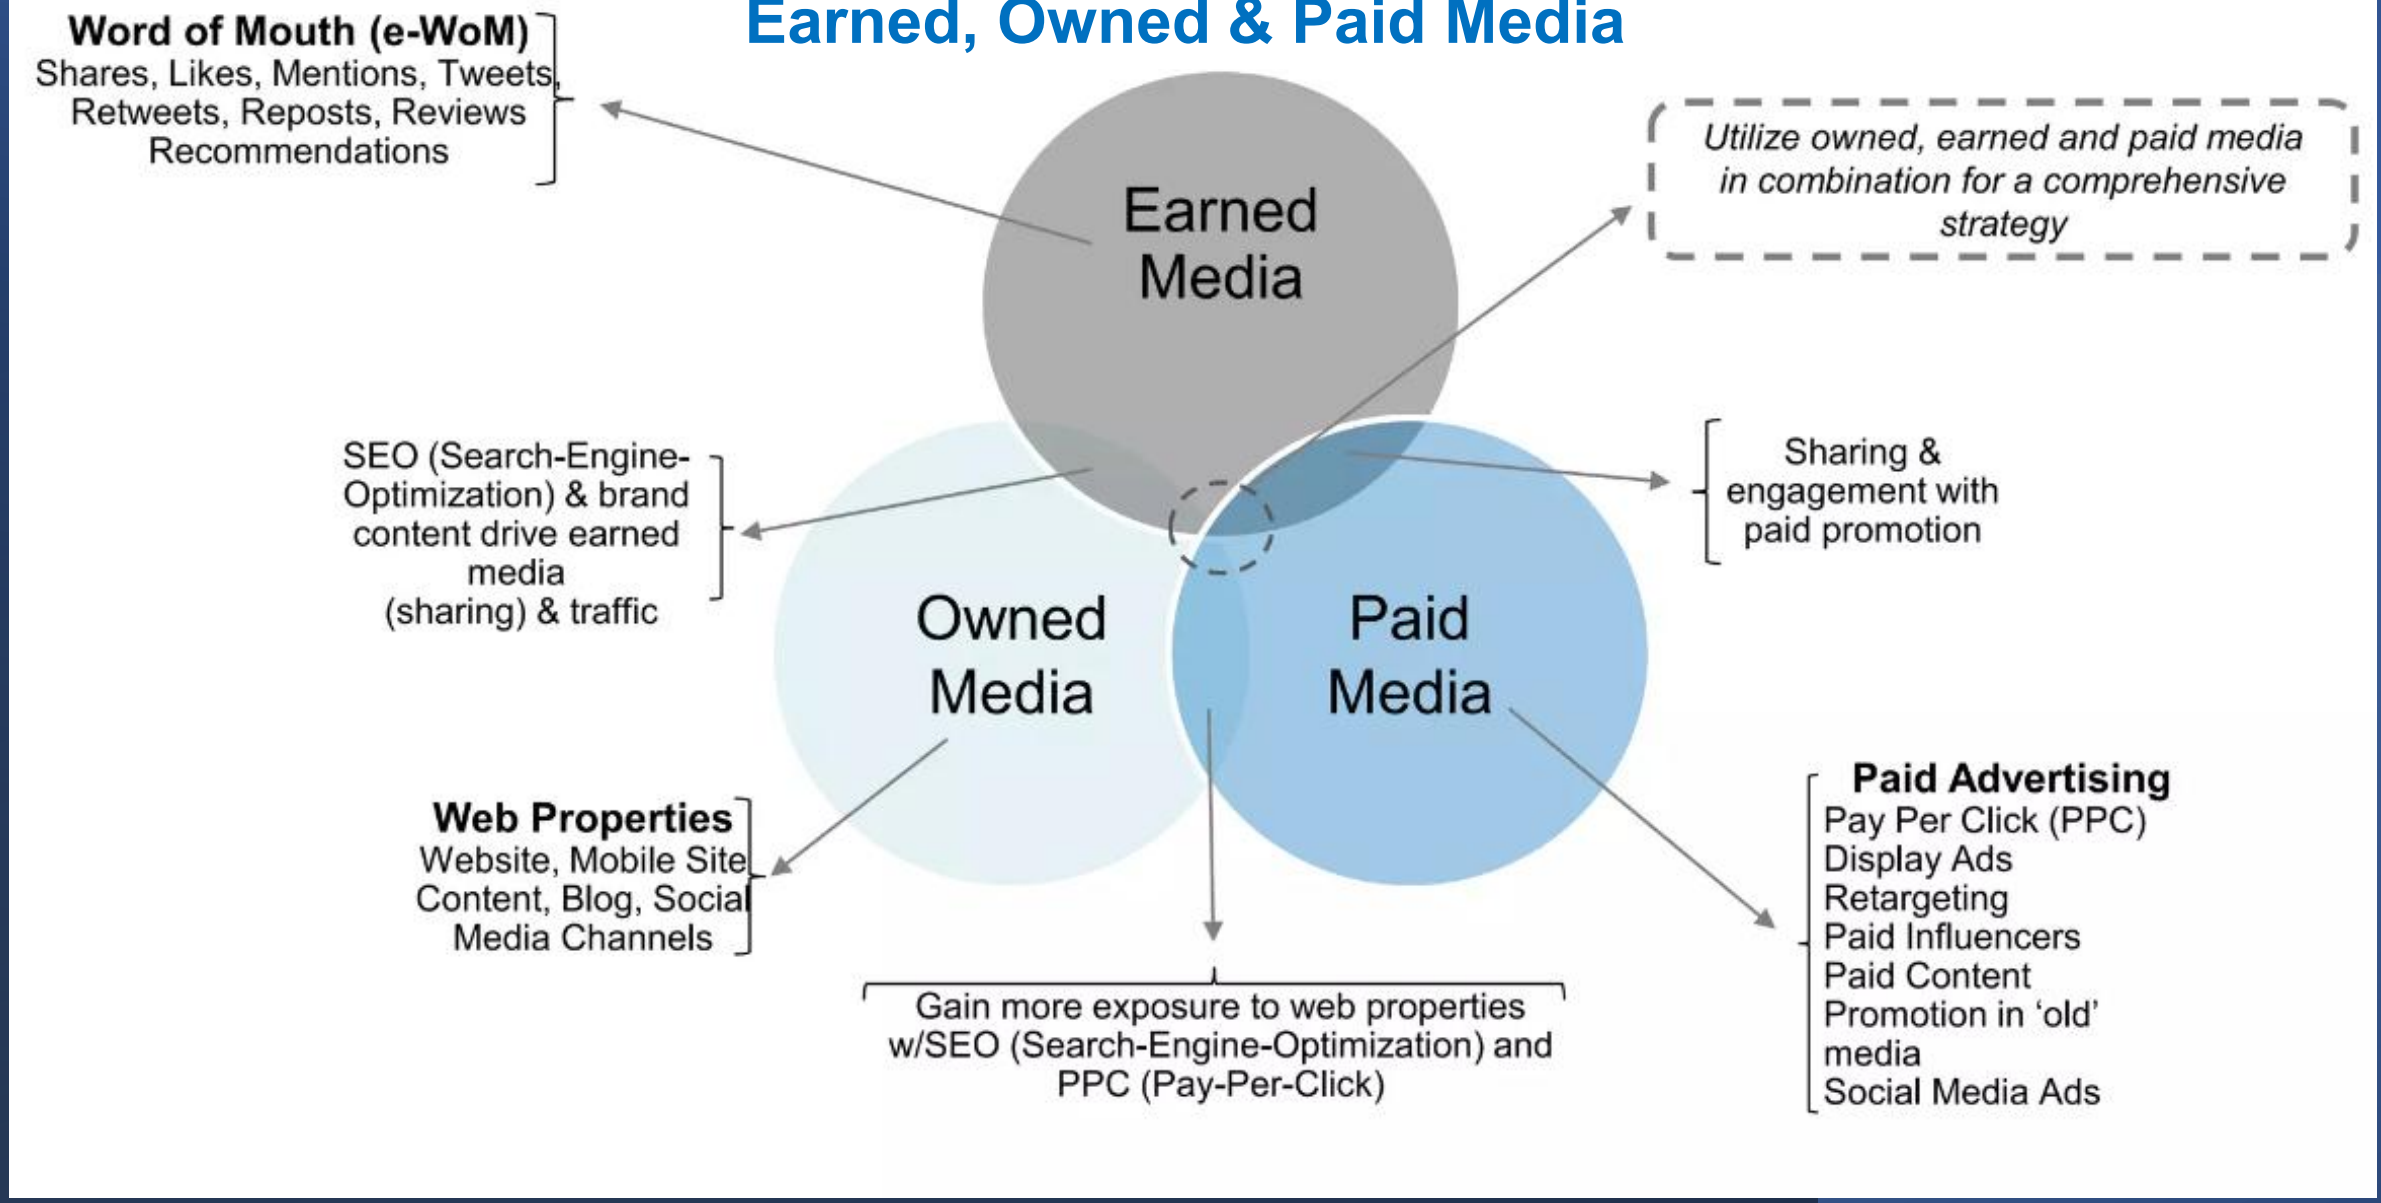

Works to put the brand in front of audiences who are already looking for a solution using digital channels

# Owned media

**OWNED MEDIA** – Different forms of media controlled by a company including their website, blogs, email list and social media presence.

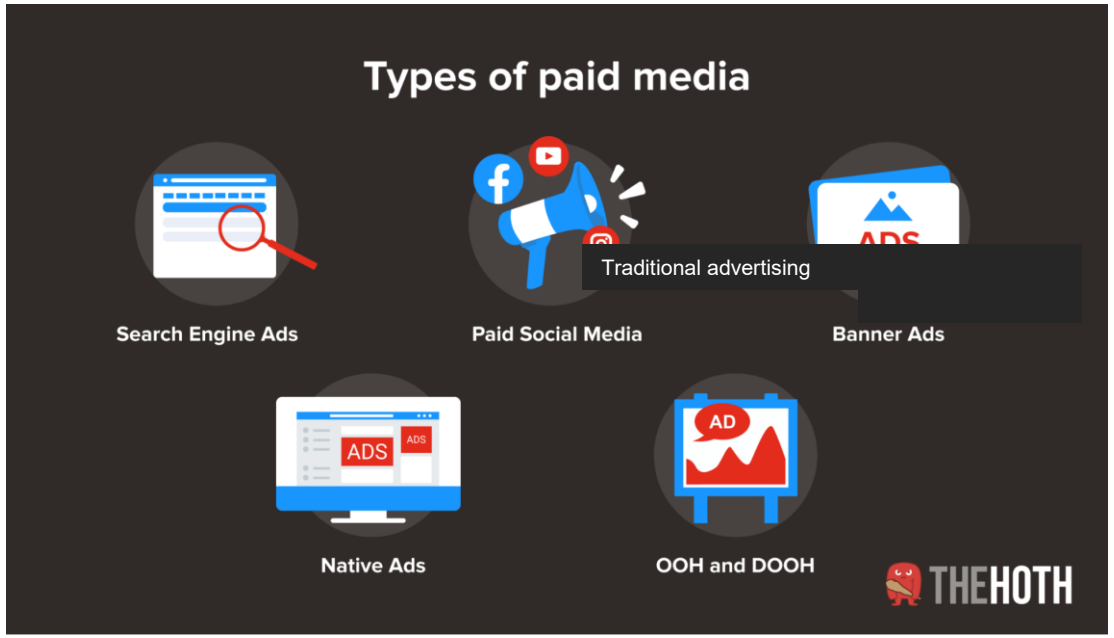

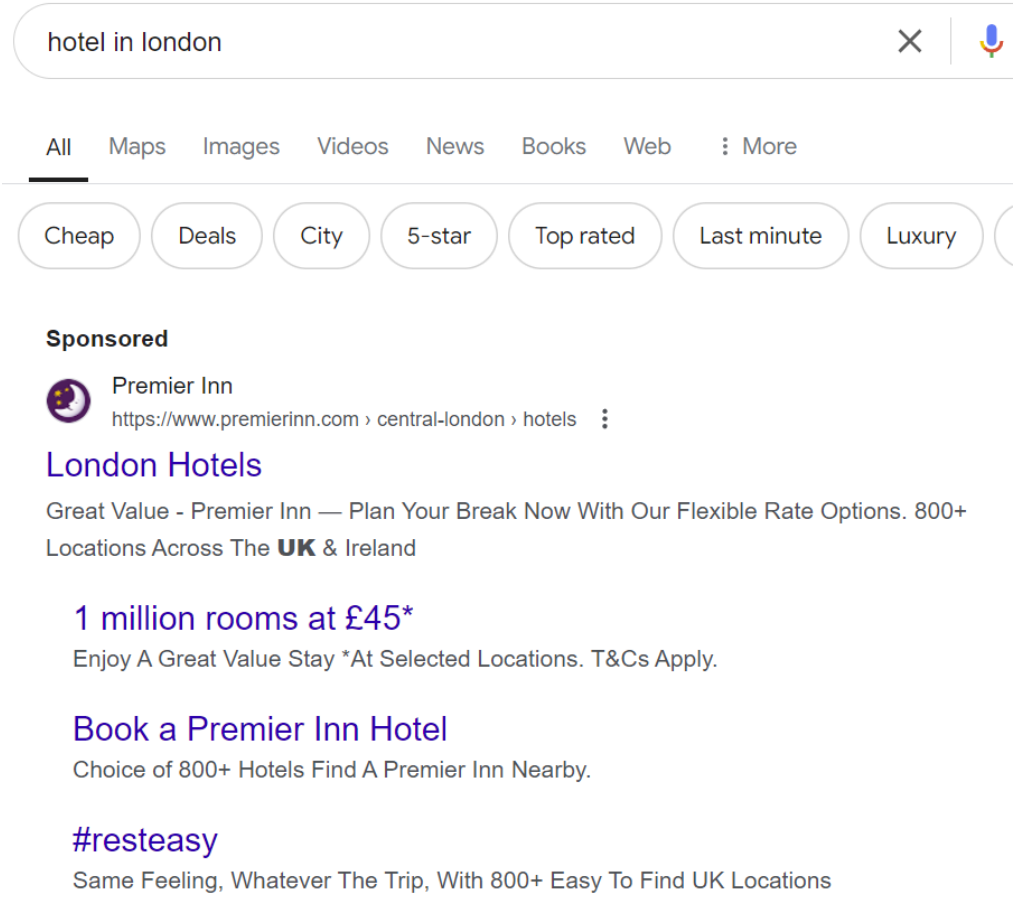

Source: Chaffey et al. (2025)

# Paid media

**PAID MEDIA** – Bought media, a direct payment occurs to a site owner or an ad network when they serve an ad, a sponsorship or pay for a click, lead or sale generated.

Source: Chaffey et al. (2025)

# Earned media

**EARNED MEDIA** – Free media. Any material posted about the company that has not been paid for or created by the company.
