Degree Class	**Fail**	**Compensatable Fail***	**Third class**	**Class 2.2**	**Class 2.1**	**First Class**	**First class**
Introduction *Overview of the company and its business context* **(10%)**	Not included or very limited in scope. Nothing or very little of relevance to the broader context of the assignment.	Limited overview of the company and its business environment, but not enough detail for the reader to develop a clear picture of the main issues in play. Sources are minimal or lack credibility.	Acceptable overview of the company and its business environment but key information is not included, which limits the reader's comprehension of the main issues. Limited use of information sources – lacking in credibility.	Reasonable overview of the company and its business environment with only a few missing details or information. Sources employed are limited but credible.	Good, clear description of the company and its business environment. Good and clear use of information sources.	Very good, clear description of the company and its business environment. A very clear picture of the context is supplied to the reader. Very good and clear use of information from multiple reliable sources.	Excellent, thorough, and clear description with detail to the highest professional standard. Outstanding use of information from a range of credible sources.
Digital challenges and opportunities *Demonstration of the understanding of the concept and range of relevant sources in use* **(15%)**	No/inadequate evidence of research and analysis of digital challenges and opportunities. Inadequate range of information sources.	Limited evidence of research and analysis of digital challenges and opportunities. Limited use of information sources.	Some evidence of research and analysis of digital challenges and opportunities, but mostly descriptive. Some use of existing information sources.	Reasonable research and analysis of digital challenges and opportunities. Reasonable use of relevant literature/information sources.	Good research and analysis of digital challenges and opportunities, demonstrating competency in understanding the concept from multiple perspectives. Good use of relevant literature/information sources.	Very good and comprehensive research and analysis of digital challenges and opportunities, using a wide range of relevant sources. Very good skills in critically appraising and evaluating the literature.	The way the research and analyses are conducted shows high competence, originality and critical thinking. Excellent and comprehensive analysis of the literature is provided, using a wide range of relevant information sources.
Target market & Customer persona profile *Quality of critical argumentation, type and range of sources used* **(15%)**	Inadequate and/or irrelevant evidence, no justification and appraisal for target market analysis. Inadequate evidence of customer persona profile.	Limited evidence of theoretical understanding. No/inadequate discussion about target market and potential implications. Limited evidence	Some evidence of theoretical understanding. Some discussion about target market and potential implications. Some evidence of customer persona profile.	Some unsupported arguments are made, but a reasonable theoretical understanding is demonstrated overall. Discussion of target market and potential implications with a degree of criticality.	Good level of argumentation and showcasing of theoretical understanding. Good, fairly critical discussion about the target market and potential	Very good, clear argumentation for target market with a strong level of theoretical understanding Very good, critical discussion of the target market and its potential	Outstanding depth of discussion. Extensive reading of relevant material is showcased. Excellent, convincing and critical argumentation

	Severe lack of engagement with both academic literature and other information sources.	of customer persona profile.		Reasonable evidence of customer persona profile.	implications. Good evidence of customer persona profile.	implications. Very good evidence of customer persona profile.	throughout section. Exceptional evidence of customer persona profile.
Customer engagement: Conceptualisation and evaluation of strategies *Quality of critical argumentation.* *Demonstration of market research techniques, analytical skills, quality of assessment and range of sources and observations.* **(30%)**	Inadequate and/or irrelevant evidence of theoretical understanding. No/inadequate analysis. Inadequate range observations. Severe lack of engagement with both academic literature and other information sources.	Limited evidence of theoretical understanding. No/inadequate discussion about customer engagement and potential implications. Limited analysis and evaluation. Limited use of observations. Limited engagement with both academic literature and other information sources.	Some evidence of theoretical understanding. Some discussion about customer engagement and potential implications. Some evidence of analysis and evaluation, but mostly descriptive. Some use of observations. Some engagement with both academic literature and other information sources.	Reasonable theoretical understanding. Discussion of customer engagement and potential implications with a degree of criticality. Reasonable analysis and evaluation, showcasing an acceptable degree of knowledge/understanding of the brand's practices. Reasonable use of observations. Reasonable level of engagement with both academic literature and other information sources.	Good theoretical understanding. Good, fairly critical discussion about customer engagement and potential implications. Good analysis and evaluation, demonstrating some criticality when interpreting findings. Good use of observations. Good level of engagement with both academic literature and other information sources.	Very good theoretical understanding. Very good, critical discussion about customer engagement and potential implications. Very good, comprehensive, critical and resourceful analysis and evaluation using a wide range of observations. Very good level of engagement with both academic literature and other information sources.	Outstanding depth of discussion. Excellent, convincing, and critical argumentation throughout the section. The analysis and evaluation show high competence, originality and criticality. Wide range of relevant evidence and observations. Excellent level of engagement with both academic literature and other information sources.
Recommendations *Support for and clarity of recommendation, elaboration and visualisation of the analysis and observations.* **(20%)**	No/inadequate recommendations. No/inadequate links to theories and literature.	Limited, unsupported and unclear recommendations. Limited level of detail. Limited links to theories and literature.	Mostly relevant recommendations but only some evidence of adequate support. Reasonable level of detail. Some links to theories and literature.	Reasonable recommendations. Reasonably good level of detail overall. Reasonable links to theories and literature.	Good and sensible recommendations, good level of detail and good argumentation overall. Good links to theories and literature.	Very good and very well justified recommendations. Very good level of detail. Critical argumentation of a very high standard. Very good links to theories and literature.	Outstanding justification for imaginative recommendations. Excellent use of a wide range of resources, critical argumentation of a very high standard. Excellent links to theories and literature.

Presentation & formatting quality *Layout, structure, writing style, referencing*. **(10%)**	Report is difficult to follow due to awkward structure. Referencing is inconsistent or not included. Frequent typographical and/or grammatical mistakes.	Formatting and structure are poor. Citations and references poorly or inconsistently presented. Frequent typographical and/or grammatical mistakes.	Formatting and structure are acceptable. Some evidence of referencing but it is applied inconsistently. Many typographical and/or grammatical slips.	Formatting is reasonably good and structure is reasonably logical, but readability is sub-optimal. Reasonable level and quality of referencing. Only some typographical and/or grammatical slips.	Good job on formatting and structure. The report is easy to follow, and the key content is clearly communicated. Good, consistent, referencing. Few typographical or grammatical mistakes.	The report is very well written and very easy to follow. Key contents are effectively communicated. Very good level of academic writing and referencing. Very few typographical or grammatical mistakes.	Presentation is crisp, uncluttered, highly fluent, focused and sophisticated, presented in an appropriate format. Level of academic writing and referencing are outstanding. Essentially, no mistakes are identified.
